Profile

Aspiring Business Analyst with hands-on experience in data analytics, business intelligence, and AI-powered applications. Skilled in gathering and analyzing business requirements, SQL, Python, Excel, dashboard development, and translating business problems into technology solutions. Strong understanding of the Software Development Life Cycle (SDLC) with excellent analytical, documentation, and communication skills.

Technical Skills

Business Analysis:

Requirement Gathering, Business Analysis, SDLC, Process Improvement

Data Analytics:

Excel, Power BI, Metabase, Pandas, NumPy, Statistical Analysis, EDA

Databases:

MySQL, SQL

Documentation:

Business Requirement Documents (BRD), Functional Requirement Specification (FRS), User Stories

Programming:

Python, SQL, JavaScript

Development:

FastAPI, React.js, HTML5, CSS3

Tools:

Figma, Git, GitHub, VS Code, DBeaver, Podman

Professional Skills:

Communication, Presentation, Stakeholder Management, Problem Solving, Team Collaboration

Internship Experience

Data Science Intern

[Zdata Technologies](#)

Chennai, India

Aug 2025 – May 2026

- Collaborated with technical teams to develop a warehouse demand forecasting solution by gathering business requirements, analyzing datasets, performing feature engineering, and evaluating forecasting models. Presented analytical findings to support inventory planning and business decision-making.

Data Analyst Intern

[Zdata Technologies](#)

Chennai, India

May 2025 – Aug 2025

- Developed a BigQuery Cost Analytics platform by analyzing business requirements, building SQL-based data pipelines, and creating interactive Metabase dashboards. Generated reports and insights that supported cloud cost optimization and business decision-making.

Business & Technical Projects

CareerCompass AI

Developed an AI-powered career guidance platform that analyzes resumes, identifies skill gaps, and recommends suitable career paths. Gathered functional requirements, designed user workflows, collaborated on frontend and backend development, and implemented data-driven recommendation features.

BigQuery Cost Analytics Dashboard

Developed a business intelligence solution using BigQuery, SQL, and Metabase to analyze cloud costs, generate reports, and provide actionable insights for business stakeholders.

Warehouse Demand Forecasting System

Analyzed historical warehouse data and developed forecasting models to support inventory planning and business operations through predictive analytics.

Hawkeye – Traffic Violation Detection System

Developed a web-based traffic violation management system by analyzing user requirements, designing workflows, and implementing vehicle search and reporting features using React and REST APIs.

WicketWay – Cricket Ground Finder Application

Developed an Android application that enables users to discover, search, and book cricket grounds while improving user experience through intuitive workflows.

Business Analysis Experience

- Gathered and analyzed business requirements for software applications.
- Assisted in translating business needs into functional software features.
- Created dashboards and reports to support business decision-making.
- Collaborated with developers during software development and testing.
- Applied SQL and analytics techniques to solve business problems.
- Participated in requirement analysis, workflow design, and process improvement initiatives.

Online Courses & Certifications

NPTEL: Data Mining ([Certificate](#)) — BI and Analytics ([Certificate](#)) — Data Mining for Decision Trees ([Certificate](#))

Education

Master of Computer Applications (MCA) <i>D G Vaishnav College</i>	Chennai, India 2024 – 2026
Bachelor of Computer Applications (BCA) <i>Sourashtra College</i>	Madurai, India 2021 – 2024
